What do you believe is currently the biggest challenge at Christ Church? Why and how would you address it? I believe the biggest challenge facing Christ Church today is creating increased engagement and unity across our diverse church community. We say we are a joyful community sharing life in Jesus Christ. It would be wonderful to see more sharing/working together, unity, in this mission between all the members of our congregation.

We have had a definite increase of opportunities and participation since COVID but it would be inspiring to see even more engagement across all our community. I would hope to work with our vestry and all those already involved in this mission.

In unity we are better equipped to be the hands and feet of Jesus. Engagement, whether volunteering, serving the community or attending church events will bring us closer to each other and to God.
